MULTIPLEX HOLOGRAMS are three-dimensional moving pictures. This brilliant, rainbow-colored image is suspended in space through a device called the "camera" or "cell." These devices are manufactured in the United States, and are being used by many companies for advertising, promotion, and entertainment purposes.

MULTIPLEX HOLOGRAMS have been used in art, advertising, computer graphics, computer displays, astronomy, research, and many other fields. Over 100,000 holograms have been produced by the company, and numerous examples are available on request.

MULTIPLEX HOLOGRAMS are available in various sizes and formats. For more information, please contact the company at 415-644-0499.
